Becoming a Reiki Master

The call to become a Reiki Master is intuitively recognized by those students who have been initiated in the 1st and 2nd grade and who have practiced for some time.

The initiation develops to further personal growth and change on all levels. We received to carry out this training through the initiation and relationship established with Phyllis Lei Furomoto.

In great gratitude, we now have brought several Reiki Masters on to this path. We are completely aware of the unending responsibility the Master accepts in initiating a student to the level of a Master.

The program of the training is individually tailored to the personal needs of the person ready for this further step.
